

MECHANICAL TECHNICIAN

FOR FASTMOVING SWISS HIGH-TECH COMPANY

Position: Mechanical Technician
Employment: Permanent – 100 %
Company: Bcomp Ltd., Fribourg, Switzerland
Starting date: January 2025 or to be discussed

POSITION OVERVIEW

Bcomp Ltd. is a young and dynamic Swiss company specialised in the development, marketing and sales of natural fibre composite solutions for high-performance applications. With a background in the sports industry, and after establishing ourselves in motorsports, we are now focusing on growing our presence in the mobility market. We develop sustainable lightweighting solutions based on natural fibres in close collaboration with our customers, in a fast-paced and entrepreneurial working environment.

To strengthen its Operations team and boost our production lines, Bcomp is looking for a **Mechanical Technician** ideally as of 1st of January in a small team.

MAIN TASKS AND RESPONSIBILITIES

- Carry out preventive and corrective maintenance on production and control equipment
- Support the production team to restart machines after breakdowns
- Ensure safety of the different production lines by following each machine risk analysis and safety concept such as LOTO (Lock Out Tag Out) during interventions
- Define and update the maintenance plan for each machine and schedule preventive maintenance accordingly
- Define and update machine risk analysis for each production equipment
- Participate to machine design reviews, installation, improvement and validation of new equipment
- Support the engineering team in problem solving analysis
- Participate to external audits like IATF (automobile standard) and ISO
- Manage stocks and classify spare parts of each machine
- Handle the electronic maintenance system (GMAO) and record all interventions made in this system

- Follow up and record standard maintenance KPI's such as (MTTR, MTTF, etc.)
- Carry out maintenance plans in accordance with the different SOP's (start of production) dates
- Ensure 5S during interventions and at the maintenance workshop

QUALIFICATIONS AND PERSONAL QUALITIES

- Diploma of Maintenance Technician or Automatician
- 2-4 years of experience in the maintenance of industrial production machines (ideally in textile or plastic injection)
- Experience in an industrial start-up is ideal
- Open to work in shifts
- Fluent in French is a must; knowledge of English is a real advantage
- Be able to take initiative, work independently and solve problems
- Service and goal oriented with a collaborative approach and team spirit
- Understanding of standard computer skills (Excel, Word, Powerpoint, Outlook, Teams), GMAO
- Willingness to learn and discover new industrial technologies and fields
- Positive and energetic mindset – everything is possible!

ABOUT US

We are a dynamic, international team working in a fast-paced and entrepreneurial yet equal and respectful environment. Each of us takes responsibility for their work and contributes to a welcoming and inclusive atmosphere based on mutual trust.
